

October 2015

Dear Primary Care Provider:

The wait is over, ICD-10 is here.

This change will impact every aspect of the health care industry. ICD-10 presents an opportunity to provide more specific and meaningful diagnostic information. However, providers who are late complying with the regulation's deadline might face payment delays and claim denials.

The upgrade to ICD-10 will:

- Provide better data for measuring health care service quality, safety
- Allow clinical IT systems to record far more specific diagnostic information

Attached you will find the Top ICD-9 codes translated to ICD-10 codes to assist you in your transition to ICD-10 along with a resource page.

You can also contact me directly at (818) 702-0100, ext. 303.

Sincerely,

Kimberley Litzsey  
HCC Coding Specialist
